

# W O T E R

**Treatment and reUse of wastewaters**

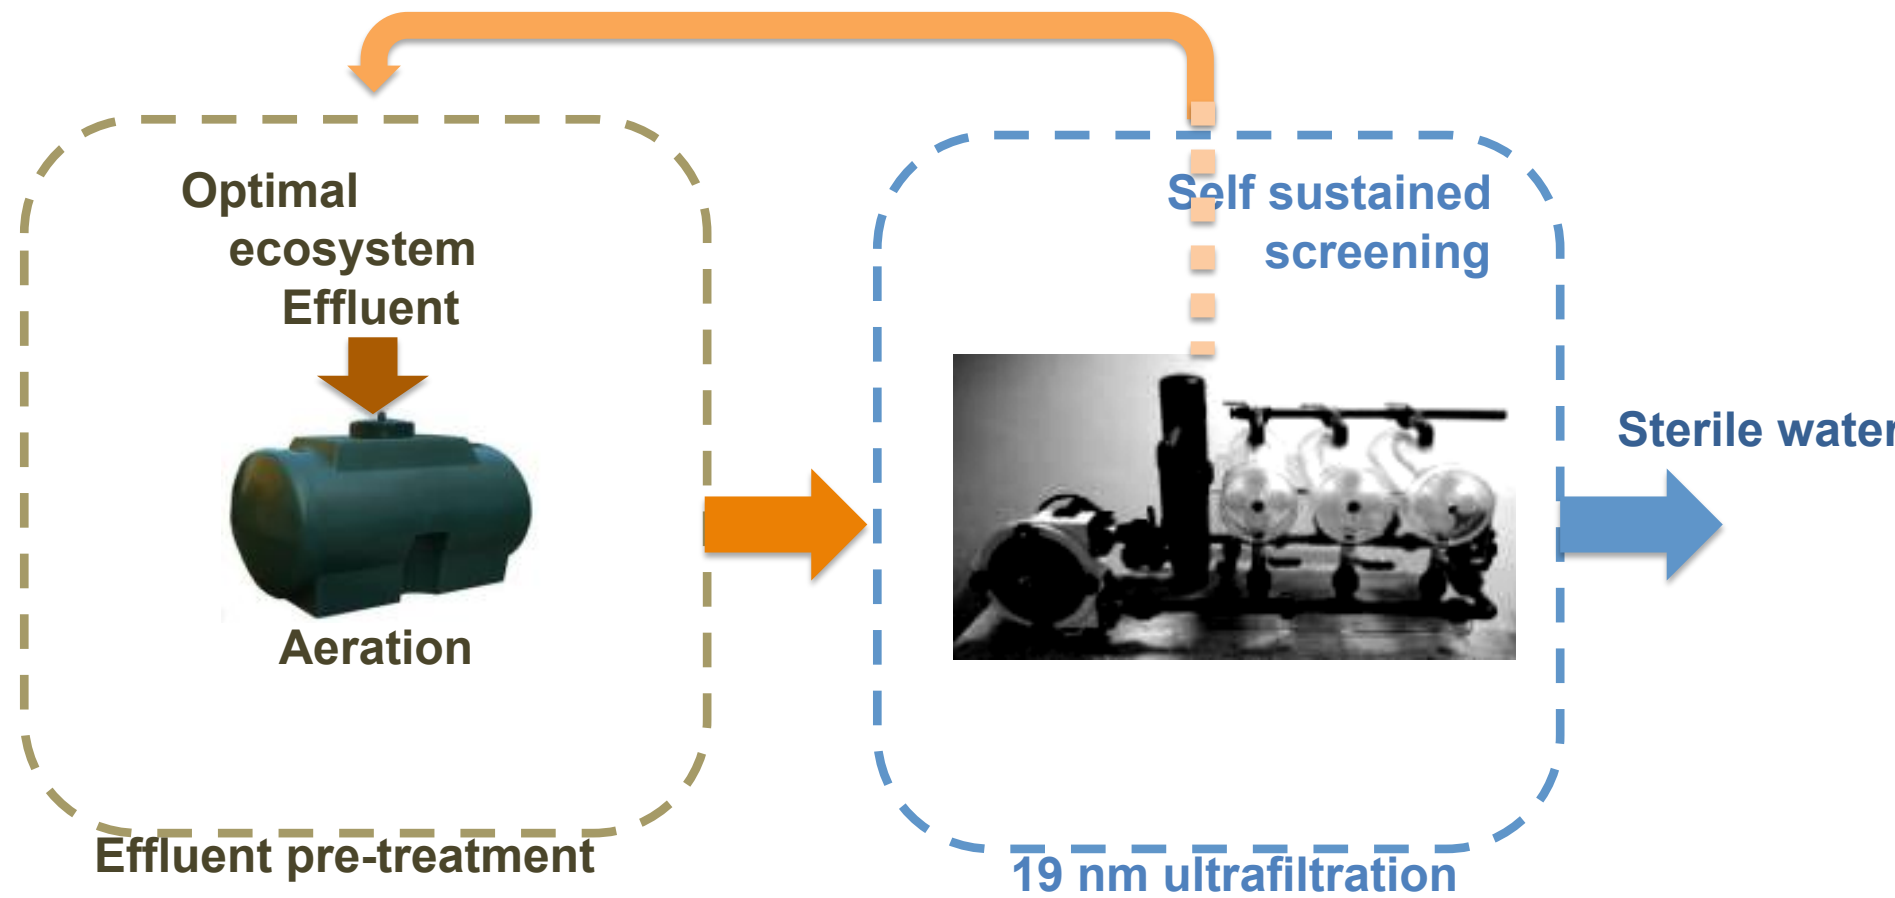

***Ecological solution based on low consumption***

**ANC – ANS**

***Non collective and semi collective  
habitat treatment***

Electronic piloting/drive

- Back to the tank and retro-washing
- Aeration cycles management / extraction
- Cloud communication

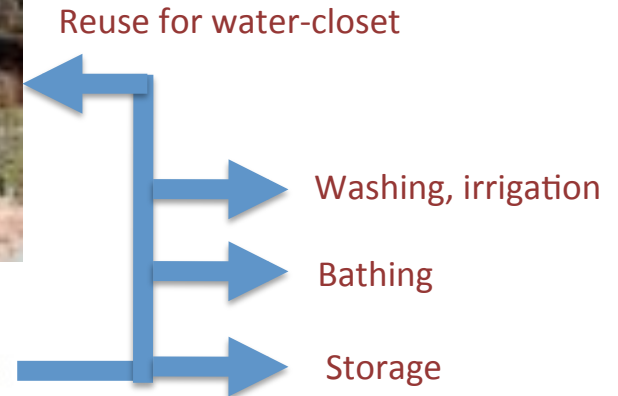

**Pre- treatment**

**Treatment**

**Reuse**

The wastewater receiving tank placed above ground or buried (possibility of using an existing tank). Without smell, it can be positioned outside or inside (cellar, garage, lean-to ...).

### Example for a family of 5

- Compact : Long. 1 m x Larg. 0,55 m x H. 0,55 m
- weight : 24 kg
- Instantanéous power: 100 W for 6 hours a day
- Maximum surface, including tank : 2m<sup>2</sup>

Holistic approach

Security  
Management

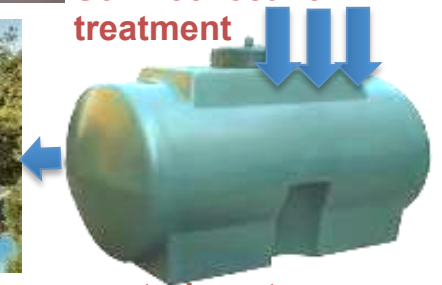

Semi collective treatment

Semi collective treatment

ReUse en eau de baignade

watering storage
